**INSTAX PAL™ DIGITAL CAMERA**

- Built-in Internal Memory (50 images)
- Expandable with Micro SD card
- Built-in Flash (LED)
- Power Button (Top), Shutter (Back)
- Lithium ion (Built-in), USB-C (Charging)

**POCKET FRIENDLY DESIGN**

- Fun-sized, only 41g
- Includes multi-use detachable ring.
- Available in 4 Colours
- Built-in speakers

**WIDE-ANGLE LENS**

- 16mmF2.2 lens (35mm Equiv.)
- 1/4s to 1/80000s shutter speed
- Focus as close as 19.4cm
- Automatic Exposure (Program AE)

**SYSTEM COMPATIBILITY**

- Smartphone required
- Works with all INSTAX film sizes
- Compatible with all smartphone printers\*<sup>2</sup>
- Pair directly to INSTAX Link printers in Link Mode

**REMOTE SHOOTING**

- Live view shooting with Smartphone App
- Multi-use ring can be used as a stand
- Self-timer shots (2/10 sec.)
- Interval shooting mode

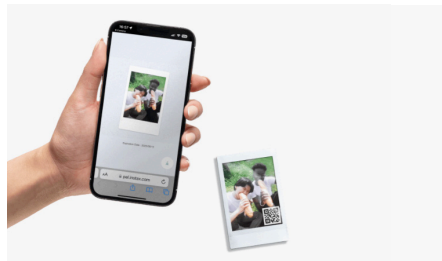

**INSTAX PAL™ APP**

- View, Share and Print<sup>1</sup> your images
- 18 in-app filters
- Record pre-shutter phrases
- Available free for iOS/Android

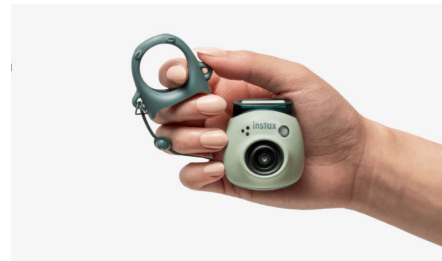

**CUSTOM PRE-SHUTTER SOUND**

Let's make some noise! You can record pre-shutter phrases via the free, downloadable INSTAX PAL™ Smartphone App, and you can create a set of five phrases, to randomly play whenever you hit the shutter button to snap a shot.

**INSTAX ANIMATIONS**

Check out the "Gift inbox" section in my Smartphone App to turn sequenced, Interval Shooting images into an animation or create new animations from the in-App gallery. My Animation feature is perfect for viewing in-App, or for printing with a scannable QR code to reveal your creation.

**MULTI-USE, DETACHABLE RING**

Attach my multi-use detachable ring to make sure I won't go anywhere. Not without you anyway! stand it on the multi-use, detachable ring, and you can find the perfect angle for your remote, self-timed shots using my Smartphone App. Attach the multi-use, detachable ring to the top of me and lo and behold, you've got yourself a viewfinder.

**LINK / FUN MODE**

You can print directly to the INSTAX LINK Series Smartphone Printers via Bluetooth as you "snap," by switching the bottom button to "L" ("Link") Mode and pairing directly with the printer. You can also print using your INSTAX MINI LiPlay™, INSTAX MINI Evo™ or any other INSTAX LINK Series Smartphone Printer!<sup>2</sup> In the INSTAX PAL App, simply select the applicable INSTAX printing device App and follow the same steps that you use to start printing your other digital Smartphone photos!

\*1 Smartphone required, sold separately.

\*2 Compatible with all INSTAX Link Smartphone Printers, INSTAX MINI Evo, and INSTAX MINI LiPlay cameras and are sold Separately
